CAMDEN GODDARD

cgoddardoh@gmail.com | 614-817-2727 | camdengoddard.dev | linkedin.com/in/camgodd | github.com/CamdenGoddard

EDUCATION

Valparaiso University — Valparaiso, IN *Expected May 2029*
Bachelor of Science, Computer Science | GPA: 3.34
Relevant Coursework: Algorithms & Abstract Data, Algorithms & Programming, Object-Oriented Programming, Discrete Mathematics, AI Fundamentals

Gahanna Lincoln High School — Gahanna, OH *Aug 2021 – May 2025*
Valedictorian | GPA: 4.11

PROJECTS

Wave — 3D Audio Visualizer *2026*
wavevisualizer.com | github.com/CamdenGoddard/WaveVisualizer

- Built a real-time 3D audio visualizer with Three.js and the Web Audio API; a 1024-point FFT splits each frame into bass, mid and treble bands that deform a 120×120-segment mesh and drive bloom lighting.
- Integrated Spotify's Web Playback SDK with OAuth 2.0 PKCE sign-in (no client secret shipped), plus tab-audio and mic capture.
- Wrote beat detection that triggers when bass jumps 35% above its running average, synced .lrc lyrics, and unit tests for the lyrics parser and PKCE helpers.

Firstwords — AI Interview Practice Tool *2026*
thefirstwords.netlify.app | github.com/CamdenGoddard/firstwords

- Built a full-stack AI app that generates tailored interview questions and answer feedback via the Anthropic API.
- Designed a client–server architecture using Netlify serverless functions with server-side prompt construction and per-IP rate limiting to protect API credentials and usage.

Paint — Java Desktop Image Editor *Sept 2026 – Present*
github.com/CamdenGoddard/Paint

- Building a Java/JavaFX image editor over agile sprints, shipping a tagged GitHub release with notes each sprint.
- Implemented per-tab undo/redo with a two-stack history and rectangle select with cut, copy, paste and move.
- Built 12+ drawing tools, including n-sided polygons, text and an eyedropper, with live previews.

SKILLS

Languages: Java, Python, JavaScript, HTML/CSS
Frameworks & APIs: Three.js, React Native, Web Audio API, Spotify SDK, Anthropic API, REST APIs, OAuth 2.0
Tools & Platforms: Git/GitHub, JUnit, Node.js, Netlify Functions, Cloudflare Workers, VS Code

ATHLETICS

NCAA Division I Cross Country & Track — Valparaiso University *2025 – Present*

- Train up to 80 miles per week as a Division I distance runner while carrying a full Computer Science course load.
- Previously served as team captain of the Gahanna Lincoln High School cross country team.

WORK EXPERIENCE

Balila Kitchen — Salesperson, Farmers Markets, Columbus, OH *June 2026 – August 2026*

- Handled transactions and product presentation for a prepared-foods vendor at Columbus farmers markets.

Pitabilities — Team Member, Gahanna, OH *June 2026 – August 2026*

- Prepared and served orders on a fast-paced, high-volume food truck.

Rita's Italian Ice — Server, Gahanna, OH *March 2023 – June 2026*

- Took orders, ran POS transactions, and resolved customer issues during high-volume summer shifts.
